

Odour Study Day

Silsoe Odours Ltd and ADAS
at Wrest Park, Silsoe, Bedfordshire

Thursday, 15 November 2012

01525 860222

Silsoe Odours Ltd and ADAS hold Odour Study Days each year. This popular one day event is aimed at increasing awareness about the objective measurements of odours, and how measurement and modelling techniques can be used to address odour nuisance and planning problems. The topic areas are of relevance to a wide range of specialists including operators of odorous processes, odour abatement plant suppliers and installers, planning and environmental consultants, wastewater treatment specialists and regulators.

Participants will have the opportunity to visit the Silsoe Odours laboratory to see, and experience, how odour concentration analysis is undertaken to the BSEN13725:2003 European Standard. All delegates will have the opportunity to have their olfactory senses assessed using the Standard's odour panel selection criteria, and will be issued with a certificate to show the results. This assessment provides participants with an indication of their sensitivity to odours and could thus be useful to those involved in assessing "nuisance" odours.

Programme

- | | | |
|-----------|--|--|
| 09.00 hrs | Registration and coffee + Testing in the Odour Lab | |
| 10.00 hrs | Welcome to Silsoe <i>Chairman:</i> | |
| 10.10 hrs | Setting the scene - Introduction to a case study | <i>Steve Peirson, ADAS</i> |
| 10.20 hrs | Objective and subjective odour measurement | <i>Robert Sneath, Silsoe Odours Ltd</i> |
| 11.00 hrs | Coffee | |
| 11.15 hrs | How odour impacts are assessed using dispersion modeling
Dispersion modelling is used to quantify odour nuisance risks (for planning and EIA work), to assist in specifying abatement plant, and to validate existing nuisance. | <i>Steve Smith, ADAS/Met Office</i> |
| 11.50 hrs | Case Study - Tackling the problem | <i>Steve Peirson, ADAS</i> |
| 12.30 hrs | Buffet Lunch and Odour Laboratory visits
Odour laboratory demonstration and sensitivity testing
During this period delegates will be split into groups of six for acuity testing | <i>Paddy Schofield, Silsoe Odours Ltd.</i> |
| 14.10 hrs | Odour Abatement Equipment | <i>Steve Peirson, ADAS</i> |
| 14.45 hrs | Complaints and incident reporting
Objective records can help identify the specific cause of complaints and can be vital in nuisance cases where objective evidence is essential. | <i>Steve Smith, ADAS/Met Office</i> |
| 15.10 hrs | Tea | |
| 15.20 hrs | IPPC Odour Guidance | <i>Steve Peirson, ADAS</i> |
| 15.45 hrs | End (Opportunity for further olfactometric testing) | |
